

A Short History of the Business Catalysts

Firm's principals, Daniel Voicu and Mugur Filipescu, founded the firm that is today Voicu & Filipescu through the acquisition in 2001 of the local office of an international law firm. Soon after its establishment, the firm gained its position as one of the top ten law firms on the Romanian market in terms of turnover, size and reputation.

Throughout time, both Daniel Voicu and Mugur Filipescu have proven a natural disposition towards catalyzing business transactions and taking opportunities in a constructive way. It is based on this distinctive feature that Voicu & Filipescu has constantly maintained its ascending path. In 2008 a part of the former law firm Stefanica, Dutu & Partners was added to Voicu & Filipescu, and in 2009 the firm integrated the tax and accountancy consultancy company Steuer & Buchhaltung Partners, a long-time business partner.

The firm is an independent associated office of Squire Sanders & Dempsey L.L.P., a reputable international law firm based in USA, with offices worldwide. This partnership translates into value for our clients due to the perfect balance between the firm's access to international expertise and know-how and our thorough understanding of the local business environment.
